# The Ultimate Cloud Communication Solution

## All in One Solution

Regardless of your company's size or industry, ULTATEL can help with cost-effective tools that are all under one roof with ULTATEL's cloud solution. No hardware is needed so costly equipment upgrades and maintenance are now a thing of the past. Improve communication quality, enhance your customer experience and reduce your monthly phone bill.

## Better Connected, Even When Further Away

ULTATEL softphones allow you to make HD voice and 1080p video calls over IP using H.264 and VP8 codecs for crisp, clear calls. Your company's employees can now be anywhere, working anytime.

## Microsoft Teams Integration

Connect your Microsoft Teams account with your ULTATEL phone system for seamless integration onto one platform. Chat, video call, file share for collaboration and get more done with the power of Microsoft Teams and ULTATEL.

## We're Your Partner

We pride ourselves in being a long-term, strategic advocate for our customers. Our personalized, local expert advisory and managed services, as well as 24/7/365 digital and on-site support is delivered by the same engineers that created the solutions.
